

# Joshua Mathias

COMPUTER SCIENCE STUDENT · ONTARIO TECH UNIVERSITY

joshmwork12@gmail.com | linkedin.com/in/joshua-mathias-9b759b327 | github.com/JMScripts1 | Whitby, ON

## EDUCATION

### Ontario Tech University

Oshawa, ON

Bachelor of Science in Computer Science

Expected Apr. 2029

- **Relevant Coursework:** Data Structures (in progress), Linear Algebra (in progress), Discrete Mathematics, Computer Architecture, Object-Oriented Programming, Programming Workshop I & II (C++)

## EXPERIENCE

### Personal Touch Computers (PTC)

Whitby, ON

IT Support & Systems Co-op (High School Placement)

Oct. 2024 – July 2025

- Provided service desk and on-site support to ~40 small and medium-sized business clients of a managed IT services provider (MSP) across Durham Region, working both independently and alongside senior technicians
- Diagnosed and resolved hardware, software, and network issues in client environments, restoring service for business-critical systems and minimizing downtime
- Imaged and deployed ~100 devices across multiple client sites, handling OS installations and workstation setup
- Supported Microsoft 365 environments, endpoint security tools, and routine backup/disaster recovery checks
- Logged and tracked issues in a professional ticketing system, documenting troubleshooting steps for the senior team

### Flying Squirrel Sports

Whitby, ON

Court Monitor & Guest Services Associate

Nov. 2023 – Present

- Deliver safety briefings to groups of 30+ guests and enforce park safety procedures in a high-traffic environment
- Resolve customer concerns and escalations on the spot, communicating clearly with guests of all ages under time pressure

## PROJECTS

### Game Deal Tracker

June 2025 – Sept. 2026

Python, SQLite, SQL, Pandas, Plotly Dash

[github.com/JMScripts1/game-deal-tracker](https://github.com/JMScripts1/game-deal-tracker)

- Built an automated Python pipeline that fetches PC game pricing from a public REST API and stores timestamped snapshots in a normalized SQLite database with a 3-table relational schema
- Wrote SQL queries using JOINS and aggregations to surface top deals, store comparisons, and price trends, visualized in an interactive Plotly Dash dashboard

## TECHNICAL SKILLS

**Languages:** C++, Python, Java, SQL, HTML/CSS

**Libraries & Frameworks:** Pandas, Plotly Dash, Unreal Engine

**Tools & Databases:** Git, GitHub, VS Code, SQLite

**IT & Systems:** Linux, Windows Server, Microsoft 365, Device Imaging & Deployment, Ticketing Systems

**Core Concepts:** Data Structures, Object-Oriented Programming, Debugging, Version Control

## ADDITIONAL TRAINING

- **Real Programming 4 Kids (RP4K):** multi-year game programming curriculum in C++ and Unreal Engine, applying OOP principles, memory management, and team debugging
